

SAFETY & CARE

Thank you for choosing a handcrafted lampshade by Ing&Yve. Each shade is carefully handcrafted in the Netherlands. Please read and retain these instructions.

IMPORTANT SAFETY INFORMATION

- For indoor use with suitable electric lighting only.
- **WARNING - FIRE HAZARD: Never place or use this lampshade over or near candles, tea lights, open flames, burners, fireplaces or any other source of heat or fire.**
- We recommend using an LED light bulb because of its low heat output.
- Always maintain adequate clearance between the light bulb and the lampshade. **The bulb must never touch the lining, fabric or any other part of the shade.**
- Never cover the lampshade while the light is on. Keep it away from curtains, paper, fabrics and other combustible materials.
- Discontinue use immediately if the shade shows signs of excessive heat, scorching, discoloration, deformation or other damage.
- This product is **not a toy**. Keep away from young children. Position the lamp so children and pets cannot easily pull it down or knock it over.

CARE

Gently remove dust with a clean, soft, dry cloth. Do not use water, solvents, abrasive products or household cleaning agents on the fabric or lining.

Ing&Yve lampshades are handcrafted. Minor variations in color, texture, pattern placement and finish are inherent to the handcrafted nature of the product and are not necessarily manufacturing defects.

KEEP THESE INSTRUCTIONS FOR FUTURE REFERENCE.
